ELEGANT LIGHTING OPULENT RANGE

FLR-2545-XWWG

The FLR-2545-XWWG is a refined 5-blade LED ceiling fan, finished in a clean combination of white and light wood grain. Its minimalist aesthetic makes it ideal for modern interiors across residential, hospitality, and mixed-use projects.

Using a DC motor, it provides high energy efficiency, whisper-quiet operation, more speed options, reverse functionality, faster response time, and a longer lifespan. The integrated LED lighting system can be adjusted between 3000K (warm white), 4200K (neutral white), and 6000K (cool daylight) using the included remote control, giving users flexible control over both comfort and ambience.
