

T-GLAND-2.0D

3-Way Pre-Wired IP65 Gland for
Fast & Reliable Installs

The Superlume T-GLAND simplifies installation by eliminating the need for conduit boxes. This 3-way quick-connect gland features clearly marked Live, Neutral, and Earth terminals, enabling fast and accurate wiring on-site. Its IP65-rated design ensures weatherproof performance for both indoor and outdoor lighting installations.

Perfect for industrial and commercial electricians who value time-saving, code-compliant solutions.

Perfect for electrical contractors and project teams looking to speed up installations and ensure compliance.
