

SLDL306 RANGE

Triac-Dimmable LED Downlight

 **5 YEAR**
Warranty

The SLDL306 Series is a recessed, triac-dimmable LED downlight designed for specification flexibility across residential, hospitality, and light commercial projects.

With 3CCT selection (3000K / 4000K / 5700K), it allows engineers and consultants to standardise on one fitting while retaining on-site adaptability.

Its aluminium construction, 110° beam angle, CRI >80, and IP44 front / IP20 rear rating make it a practical solution for general interior downlighting. Available in black or white.
