

TVPA DOUBLE

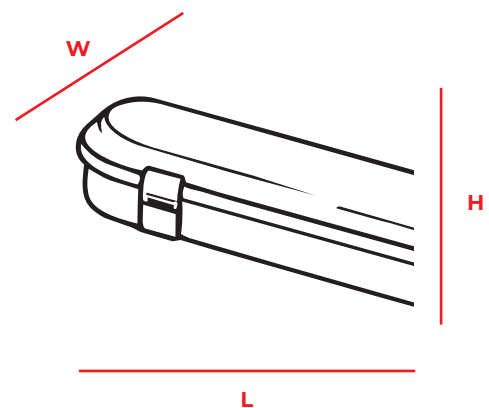

LED SMD Vapour Proof

 **3 YEAR**
Warranty

The TVPA-Double SMD LED Vapour Proof is an energy-saving alternative to traditional T5 and T8 vapour proof luminaires. Engineered for harsh environments, it features a non-corrosive UV-stabilised polycarbonate housing, frosted diffuser limiting light loss and stainless steel clips. Its integrated SMD LED gear tray and built-in optics ensures high lumen output, easy maintenance, and compatibility with motion sensors or emergency backups.

This surface-mounted fitting is ideal for dusty or damp conditions in industrial, commercial, or back-of-house environments where reliability and installation efficiency are critical.
