

## MIA 80X120

The MIA 1200 x 800 Illuminated LED Bathroom Mirror with Defogger is specified for bathrooms that require a wider mirror format with stronger light performance and a clean contemporary finish. Its broader proportions make it especially suitable for larger vanities and premium bathroom layouts, while the decorative brushed aluminium frame helps the mirror contribute to the overall design scheme. The direct lighting layout ensures optimum user illumination, supporting both function and visual comfort in project environments.
